# Web dizajn

Današnji marketing je veoma ovisan o kvalitetnoj promociji na internetu, kako za kompanije tako i za pojedince. Kvalitetan dizajn web stranice gradi povjerenje klijenata, doprinosi ozbiljnosti i donosi veću konkurentnost na tržištu. Prepustite nama da izradom i održavanjem vaše web stranice stvaramo što bolju sliku o vama na Internetu. Možete imati odlično uređenu stranicu ali ako nije kvalitetno SEO optimizirana onda će izostati vaše prisustvo na pretraživačima. Izrađujemo stranice od veoma jednostavnih i cijenovno povoljnih do onih skupljih i kompleksnijih.

The screenshot shows the official website of the Rural Development Network in Bosnia and Herzegovina (MRRBiH). The header features the network's logo with three stylized green hills and the text "MRRBiH" in blue. Below the logo, the main title is "Mreža za ruralni razvoj u Bosni i Hercegovini" and "Rural development network in Bosnia and Herzegovina". The navigation menu includes links for "POGOĐENA", "OPĆINA", "ČLANSTVO", "RURALNI RAZVOJ", "PROJEKTI", "GALERIJA", "DOKUMENTI", and "NOMINACIJE". A search bar is located on the right side of the menu. The main content area displays two images: one of a large conference room filled with people seated at tables, and another of a smaller group of people seated around a table in a more informal setting. To the right of these images, there is descriptive text about the forum and training events. Logos for the European Union, the Regional Fund for Sustainable Development, and the Ministry of Agriculture, Forestry, and Water Management are visible. At the bottom, there are images of outdoor events and a French embassy logo.

Starting with the summer of 2008, Association Netto Vita organizes a two-month-long summer internship program for US students, and in cooperation with College of Saint Benedict/Saint John's University, Minnesota, where 40 of our members have graduated.

Students choose their internships based on their academic studies, while NV staff tries to find the internships sites at local organizations and institutions.

In 1980, there are two major areas to visit around the country. The country is full of natural beauty, striking peaks, meandering rivers, and other opportunities for outdoor adventure. Additionally, history is everywhere, long-settled and less so. Every state has historical sites, and there are about 4000 state parks and recreation areas. Every national park in the country has its own unique beauty and history. Through the measure of historical landmarks, landscapes, and other natural phenomena, it is possible to move from one extreme to another, from a small cabin in the mountains to a large city.
